

Our innovative DROP-N-LOCK™ valve box helps protect critical irrigation system components and prevents unauthorized water usage in public and private spaces.

CARSON

DROP-N-LOCK™ Tamper-Resistant Valve Box

Repairs to vandalized systems can be costly. The DROP-N-LOCK lid access point is not readily apparent, helping deter vandals and reduce maintenance issues.

- Discrete access point unlocks with common tools**
- Built-in, weather-resistant stainless steel hardware**
- Audible locking engagement**
- Available in a variety of sizes**

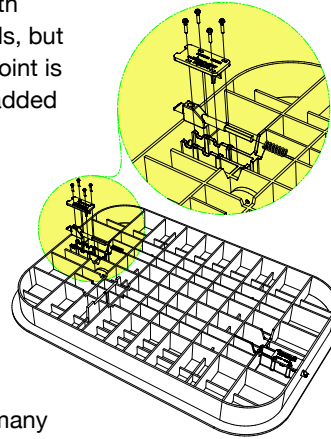

VANDAL RESISTANT

Lid opens with common tools, but the access point is discrete for added security.

VARIETY OF SIZES

Available in many common sizes for new or existing enclosures.

SPECIFICATIONS:

To specify DROP-N-LOCK valve boxes in your next project, include the following language:

Locking mechanism shall provide audible locking confirmation upon closure. No exposed bolt or nut hardware allowed. Locking mechanism material shall be glass-filled co-polymer acetyl and stainless steel components. Covers 1324 size and larger shall feature dual locks that are bi-directional for installation. Unique key operator provides single motion keyed disengagement. The cover shall comply with NEC wire probe safety provision.
